TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, TypeScript

Technologies: React, Next.js, Redux, Tailwind CSS, NodeJS, Express, MySQL, MongoDB, REST API, Jest, JWT, GraphQL

Tools: : Git, PostMan, MongoDB compass, VSCode

EXPERIENCE

Crio.Do

Oct 2023 – July 2024

Project Engineer

Bengaluru, Karnataka

- Developed a resume builder with **Next.js**, **TypeScript**, and **Redux**, reducing customer success team workload by **30%**.
- Designed and implemented a streamlined profile section using **React Hook Form**, **Tanstack Query** and **shadcn/ui**. Successfully slashed the onboarding time for new users by half, from **20 minutes to just 10 minutes**.
- Constructed an innovative ROI Calculator, utilizing **React Hook Form**, **Recharts**, and **shadcn/ui** within Crio platform, enabling users to make real-time ROI assessments, leading to a **15%** increase in conversion rates.
- Engineered a certification system with **HTML**, **CSS**, and **Directus**, boosting social engagement by 17%.
- Collaborated closely with the **content** and **product** teams to develop **10+** new projects utilizing **JavaScript** and **React**.
- Tech Stack Used:** React, Next.js, Redux, Javascript, Typescript, Tailwind CSS, GraphQL, Git, REST APIs

PROJECTS

Tata-1mg | *React.js, NodeJs, ExpressJs, MongoDB, Chakra UI* | [Github](#) | [Live](#)

- Implemented key features for **health management**, including user authentication, medication tracking, and online consultations, improving user engagement by 40%
- Built an admin panel with capabilities for managing user accounts, **tracking 200+** prescription details, and overseeing inventory, enhancing administrative efficiency by 50%.
- Enhanced the UI with responsive design elements, improving mobile accessibility and user satisfaction scores by 25%.

1800Flower.com | *React.js, NodeJs, ExpressJs, Chakra-UI* | [Github](#) | [Live](#)

- Developed an e-commerce platform for 1-800-Flower.com, featuring over 100 gourmet food and gift basket options.
- Engineered core functionalities such as login, signup, filtering, sorting, and a cart system, leading to a 30% increase in user transactions
- Deployed the backend on **Render** and the frontend on **Vercel**, achieving a 40% improvement in page load times and system reliability
- Achieved project goals through the collaborative efforts of a dedicated team of developers and designers

QKart Express | *React.js, NodeJs, ExpressJs, MongoDB, MUI* | [Github](#) | [Live](#)

- Utilized ReactJs to implement **authentication**, shopping cart features, and checkout logic, focusing on optimizing the UI for mobile devices.
- Enhanced the interface with adaptive design components, ensuring a consistent user experience across 5 different device types.
- Utilized **REST APIs** to dynamically load and render data served by the backend server
- Hosted the backend on Render for robust performance and the frontend on Vercel for quick and accessible delivery

ACHIEVEMENTS

- Awarded with **Employee of the Month** 2 times at Crio.do in recognition of exceptional performance and contributions to the company.
- Placed **2nd** in the company hackathon, developing a new web application that can help users in their coding journey.
- 350+** coding problems solved on different platforms including **Leetcode**, **GeeksforGeeks**, **Crio.Do** and **Masai** combined.

EDUCATION

Masai School

AVS Engineering College (B.E-EEE)

2022 - 2023

2018 - 2022
